organisation's sexual and reproductive health agency, at the number of women has more over the past million in ve 142.6 this

together account for about 90-95 per cent of the estimated 1.2 million to 1.5 million missing female births annually worldwide due to gender-biased (prenatal) sex selection. The two countries also account for the largest number of births each year, it said. The report cites data by Alkema, Latin America and the Caribbean, Regional, and Global, and Sex Ratios of Infant, and under-5 and Countries

taken action to address the root causes of sex selection. India and Vietnam have included campaigns that target gender stereotypes to change attitudes and open the door to new norms and behaviours. They spotlight the importance of daughters and highlight how girls and women have changed society for the better. Campaigns that celebrate women's progress and achievements may resonate more where daughter-only
